

AUSTRALIA & NEW ZEALAND'S 'MOST LOVED LIPS'

Favourite lip features as voted by you

1	<p>Perfect Proportion</p> <p>Balance between the volume in the upper and lower lip and perfectly symmetrical on the left and right</p>	
2	<p>Voluptuous Volume</p> <p>Full lips with volume & a plump pout</p>	
3	<p>Definitely Defined</p> <p>Defined & prominent lip border</p>	
4	<p>Smiley Sides</p> <p>Corners of the mouth are upturned</p>	
5	<p>Smooth Surroundings</p> <p>Smooth & even contour surrounding the lips with no sign of lip lines</p>	
6	<p>Rich Ridges</p> <p>Pronounced philtrum (the ridge connecting the upper lip to the nose) offering curve to the upper lip</p>	
7	<p>Cute Cupid</p> <p>Deep & defined 'V' (cupid's bow)</p>	

Over time, our lips change. They become thinner with age, begin to flatten and vertical lines emerge from regular lip movement.

Dermal fillers are a treatment designed to enhance or restore volume.

Made from a naturally occurring complex sugar, the injectable gel treatments 'fill in' and 'plump up' your skin.

Talk to your clinician about enhancing or rejuvenating your lips.
